John Ray Clemens spoke of improvements of 440 corridor. Construction will start next summer and improvements will be made on nights and weekends. Adding 3rd lane and also widening 65 overpass by one lane. All will be repaved.

Public Works Hosting a community meeting for feedback on updated 10th Avenue Traffic

Calming plan 7/17/17 6pm at Sevier Park Community Center

They need a few neighborhood volunteers to help us out with the install temporary traffic circle at 10th Avenue and Lawrence intersection on Saturday 7/15 (about 10 people) and the removal Saturday 7/22 (about 2-3 people). The time is 7am until about 10am (to get it in place before traffic picks up). If you would like to volunteer please go to www.turbonashville.org to sign up. Turbo is coordinating the volunteer effort for this pilot project.
