- South Street to Acklen
- Acklen Ave to Ashwood

Please call or email Elwyn Gonzalez with feedback on what they want

- 615-862-7163
- elwyn.gonzalez@nashville.gov

Is some consideration given for better street lighting

Parking is a key issue in the neighborhood- would residents on 12 South lose their on street parking?

Will the biking barriers be all the way up and down 12th? Will depend on what the neighborhood prioritizes.

Neighbor- The white bike pillars are distracting and an eye sore and an overload between the stop signs and white pillars. Would hate to see that all way down 12 South.

Are there other options that would be more visually appealing?

New strategy- have the bike lane, then the parking lane, then the lane of traffic.

Great to see improvement in the neighborhood, but could still use some refinement.

Meitra- Trees and art up and down 12 South

Nathan- crosswalks with lights, or more lights down 12th in general

Kerry- what would be top priorities?

Meitra has an idea for future fundraising- Digital images of plates that show the different street layouts and homes. Neighbors might like to purchase a quality print and we could sell to help fundraise. Feedback?

- Lots of attendees like the idea
- What would be of interest? The neighborhood or business district? Both!
- Print on something special
- Get more ideas for how to represent the pics
- Ken Winter-Historic Nashville- Anne Roberts
 - Ken- do you envision a painting? Meitra- had no bias and would be open
- Nathan- these will not be cheap and would need people commit to pre-orders before moving forward.
 - Sell everything through website but it would be good to involve the businesses, but also be able to sell to residents
 - Pete- produce shirts and have merchants carry and sell them at their stores
- Need to figure out more ways to raise money and encourage ideas
